WORK EXPERIENCE INTERNSHIP

Nimblechapps   **Ahmedabad, India**

__NODE JS__ developer Internship   *10/2021 - 12/2021*

- Created **REST API** in **Node Js** and **express JS** for login, register, forgot password, reset password, with **JWT TOKEN** (access token, refresh token) authentication, as well as implemented **SWAGGER** for it.
- Worked on **MongoDB** for storing data and also performed **Basic Aggregation** to get optimised & relevant data
- Used **MULTER** middleware for uploading images,videos & files on **Cloudinary** and stored that URL in **MongoDB**

Maruti Techlabs	**Ahmedabad, India**

NODE JS developer Internship   *1/2022 - 4/2022*

Project title "**US HEALTHCARE SYSTEM**"

description : The aim of this project is to bring doctor consultation online. Patients can register themselves at the clinic. Clinic representatives contact the patients and explain the process. Patients have to show their blood report and once it gets confirmed then they are allowed to book the appointments. The consultation is done online through meetings. Doctors can then prescribe the medicines to patients which are then sent to the pharmacy via email.

myrole : my role in this app is to add new feature as per client's requirement,
work on the **SQL** database with the use of the **PRISMA orm** created rest api for different service , also used **ZOHO CRM in this project ,** this project was developed on typescript so i am also familiar with **typescript**

TOOLS, TECHNICAL SKILLS & INTERESTS

Technical skills: Node JS, Express JS, MongoDB, Rest API development,SQL Prisma orm

Tools: Visual Studio Code, Postman, MongoDB Compass, Swagger API, zoho crm

Interests: web development, cloud computing, DevOps,React Native

Other: Model-View-Controller (MVC)
